

UW Contact List for Questions Related to La Niña and Pacific Northwest Climate

Cliff Mass

Professor, Dept. of Atmospheric Sciences
cliff@atmos.washington.edu

(206) 685-0910

Areas: PNW weather, climate variability and change; impacts on temperature, precipitation, extreme events

Nate Mantua

Co-Director, UW Climate Impacts Group
nmantua@uw.edu

(206) 616-5347 (CIG office)

(206) 616-7041 (SAFS office)

(206) 713-4039 (cell)

Areas: PNW climate variability and change; El Niño, La Niña, PDO and climate forecasting; impacts on temperature, precipitation, snowpack, extreme events, fisheries

Eric Salathé

Assistant Professor, Science and Technology Program (UW Bothell)

salathe@uw.edu

206-257-9702 (cell)

Areas: PNW climate variability and change; impacts on temperature, precipitation, extreme events

Alan Hamlet

Research Scientist, UW Climate Impacts Group
hamleaf@u.washington.edu

(206) 616-9361 (CIG office)

(206) 633-5660 (home)

Areas: PNW climate variability and change; impacts on temperature, precipitation, snowpack, streamflows, flooding

Nick Bond

UW Atmospheric Scientist and Washington State Climatologist

nab3met@u.washington.edu

(206) 526-6459

(206) 525-7363 (home)

Areas: PNW weather, climate variability and change; impacts on temperature, precipitation

David Montgomery

Professor, Earth and Space Sciences

dave@ess.washington.edu

206-685-2560 (office)

Areas: Rivers and streams; lowland flooding; landslides

Robert J. Naiman

Professor, School of Aquatic and Fishery Sciences

naiman@uw.edu

360-370-5900 (home)

Areas: Rivers, ecological consequences of flooding, human impacts on rivers that increase the severity of flooding

Susan Bolton

Professor, School of Forest Resources

sbolton@u.washington.edu

206 685-7651 (office)

Areas: Floodplain management, watershed management, hydrology
