**Poster Guidelines**
2\textsuperscript{nd} Annual Pacific Northwest Climate Science Conference

The following information will help you prepare for the poster session.

The poster session is scheduled for Tuesday, September 13, from 5:30-7:30 pm in Meany Hall. Meany Hall is a very short walk (1-2 minutes) from Kane Hall. For a location map, see [http://www.washington.edu/maps/?MNY](http://www.washington.edu/maps/?MNY).

Poster boards will have 1 poster per side. This gives more space for posters and reduces crowding around the posters. The specs are as follows:

- Standard poster boards are 4' x 8' and they are double-sided.
- The "useable" surface area of each poster board side is 3' 9" high by 7' 7" wide. (The rest of the area is taken up by the frame.)
- For one poster per side, the allowable space is: 91" wide by 45" high (or round down to 2 meters by 1 meter)

Poster boards are covered with fabric. Push pins and velcro may be used for affixing your poster to the board. Push pins and velcro will be available for your use. No electrical outlets, extra space, or tables will be available. You can see the poster boards and specs at: [http://depts.washington.edu/uwconf/posterboards/](http://depts.washington.edu/uwconf/posterboards/)

*Hanging Your Poster.* You will be able to hang your posters in your assigned space from 1:00 pm to 5:30 pm on September 13.

All presenters must register for the conference.

*If you have any questions, please contact Lara Whitely Binder at 206-616-5349 or lwb123@uw.edu.*
